(Incorporated in Hong Kong SAR with limited liability)

Basel III – Pillar 3 disclosures of India Branches

For the period ended 30 Jun 2025

1. Background and Scope of Applications

a. Background

The information contained in the document is for the India Branches of The Hongkong and Shanghai Banking Corporation Limited ('the Bank'), which is incorporated and registered in Hong Kong Special Administrative Region ('SAR'). The Bank's ultimate holding company is HSBC Holdings plc, which is incorporated in the United Kingdom. References to 'the Group' within this document mean HSBC Holdings plc together with its subsidiaries.

b. Scope of Application

The capital adequacy framework applies to the Bank as per Reserve Bank of India ('RBI') Regulations Capital vide **RBI** Circular RBI/2025-26/08 DOR.CAP.REC.2/21.06.201/2025-26 dated 01 April 2025 as amended from time to time. The Bank has a subsidiary, HSBC Agency (India) Private Limited ('HAPL'), which is consolidated in accordance with Accounting Standard ('AS') - 21 (consolidated financial statements). Full capital deduction is taken in regulatory capital for investment in HAPL. The Bank holds minority interests (2.07% shareholding) in a Group entity HSBC Professional Services (India) Private Limited which is neither consolidated nor is capital deducted. The investment in this company is appropriately risk weighted. The Bank does not have any other Group company where a pro-rata consolidation is done or any deduction is taken. The disclosure and analysis provided herein are in respect of the Bank, except where required and specifically elaborated, to include other Group entities operating in India.

- (i) Accounting and prudential treatment / consolidation framework
- a. Subsidiaries not included in the consolidation

The aggregate amount of capital held by the Bank in HAPL of Rs. 500,000 is not included in the regulatory scope of consolidation and is deducted from capital.

b. List of Group entities in India considered for consolidation under regulatory scope of consolidation:

The RBI guidelines on Financial Regulation of Systemically Important NBFCs and Banks' Relationship vide circular ref. DBOD. No. FSD. BC.46 / 24.01.028/ 2006-07 dated 12 December 2006 read with 'Guidelines for consolidated accounting and other quantitative methods to facilitate consolidated supervision' vide circular ref. DBOD.No.BP.BC.72/ 21.04.018/2001-02 dated 25 February 2003 mandate coverage of the 'Consolidated Bank'. This includes, in addition to the Bank the following Non-Banking Finance Company ('NBFC'), which is a subsidiary of HSBC Holdings plc, held through intermediary holding companies:

(Rs '000)

| Name of Entity /Country of Incorporation | Principal activity of the entity | Total balance sheet equity* | Total balance sheet assets* |
|--|----------------------------------|--------------------------------|--------------------------------|
| HSBC InvestDirect Financial Services (India) Limited (HIFSL) (Note1) | Non-banking Finance company | 1,462,847 | 19,374,417 |

^{*} As stated in the unaudited balance sheet of the legal entity as at 30 June 2025.

Note 1. HIFSL is 'Systemically important non-deposit taking non-banking financial company' ('NBFC-ND-SI') governed by Reserve Bank of India ('RBI'). Further, as per RBI circular dated February 22, 2019 on Harmonisation of different categories of NBFCs, the Company is classifed as an Investment and Credit Company (NBFC - ICC).

(Incorporated in Hong Kong SAR with limited liability)

Basel III – Pillar 3 disclosures of India Branches (Continued)

For the period ended 30 Jun 2025

1. Background and Scope of Application (Continued)

b. List of Group entities in India considered for consolidation under regulatory scope of consolidation: (Continued)

As prescribed in the above guidelines, the Bank is not required to prepare consolidated financial statements as it has no shareholding in this entity. However, HIFSL has been considered under regulatory scope of consolidation for the quantitative disclosures including that of capital adequacy computation under Basel III guidelines.

(ii) Bank's total interest in insurance entities

The Bank has no interest in any of the insurance entities of the Group.

(iii) List of Group entities in India not considered for consolidation both for accounting and regulatory scope of consolidation:

(Rs '000)

| Name of Entity /Country of Incorporation | Principle activity of the entity | Total balance sheet equity | Total balance sheet assets |
|--|---|---|----------------------------|
| HSBC Asset Management (India) Private Limited [#] | Asset management/portfolio management | 3,444,100 | 50,691,400 |
| HSBC Electronic Data Processing (India) Private Limited* | Back office / data processing / call centre activities | 3,554,678 | 46,131,662 |
| HSBC Global Shared Services (India) Private Limited | Under liquidation | - | - |
| HSBC InvestDirect (India) Private Limited "formerly known as HSBC InvestDirect (India) Limited"# | Holding company for HSBC InvestDirect Group | 709,544 | 5,632,557 |

| HSBC GIFT City International Banking Unit* | Banking | 1,684,485 | 535,001,933 |

^{*} As stated in the audited balance sheet of the legal entity as at 31 March 2024

[#] As stated in the audited balance sheet of the legal entity as at 31 March 2025

Note 1: The Bank does not hold any stake in the total equity of the entities mentioned above with the exception of HSBC Professional Services (India) Private Limited.

Note 2: Since the Bank does not hold any stake in the total equity of the entities, the same have not been considered for any regulatory treatment.

(Incorporated in Hong Kong SAR with limited liability)

Basel III – Pillar 3 disclosures of India Branches (Continued)

For the period ended 30 Jun 2025

2. Capital Adequacy & Structure

a. Capital Adequacy

The Bank's capital management framework is shaped by its structure, business model and strategic direction. The Bank carefully assesses its growth opportunities relative to the capital available to support them, particularly in light of the economic environment and tightening of regulations around capital requirements. The Bank's Executive Committee ('EXCO'), Risk Management Meeting ('RMM') and Asset-Liability Committee ('ALCO') maintains an active oversight over the Capital and Risk Management framework.

Under Pillar 1 of the RBI guidelines on Basel III, the Bank currently follows Standardised Approach for Credit Risk, Standardised Duration Approach for Market Risk and Basic Indicator Approach for Operational risk capital charge for computation and reporting capital adequacy to RBI. Further, the Bank has a comprehensive Internal Capital Adequacy Assessment Process ('ICAAP'), which covers the capital management policy of the Bank, sets the process for assessment of the adequacy of capital to meet regulatory requirements, support current and future activities and meet the Pillar I and material Pillar II risks to which the bank is exposed to. The ICAAP also involves stress testing of extreme but plausible scenarios to assess the Bank's resilience to adverse economic or political developments and resultant impact on the Bank's risk profile and capital position for current and future periods. This ensures that the bank has robust, forward looking capital planning processes that account for unique and systemic risks. Further, the bank has put in place stringent risk appetite measures as per revised RBI guidelines on Prompt Corrective Action. In addition to the above, the Bank is also subject to Capital Buffers as prescribed by RBI from time to time.

As per the transitional arrangement, at 30 June 2025, the Bank is required to maintain minimum capital requirement including capital buffers as per the table below:

| Regulatory Minimum in % as per RBI guidelines | As at 30 June 2025 |
|--|--------------------|
| (i) Common Equity Tier I (CET1) | 5.5% |
| (ii) Capital Conservation Buffer (CCB) - (Refer note I) | 2.5% |
| (iii) Counter-cyclical Buffer (CCyB) - (Refer note II) | - |
| (iv) Global Systemically Important Bank (G-SIB) - (Refer note III) | 1.81% |
| Minimum Common Equity Tier I (i+ii+iii+iv) | 9.81% |
| Minimum Tier I Capital | 11.31% |
| Total Minimum Capital Adequacy Ratio | 13.31% |

(Incorporated in Hong Kong SAR with limited liability)

Basel III – Pillar 3 disclosures of India Branches (Continued)

For the period ended 30 Jun 2025

2. Capital Adequacy & Structure (Continued)

a. Capital Adequacy (Continued)

Notes:

- I. The CCB is designed to ensure that banks build up capital buffers during normal times, which can be drawn down during a stressed period. Banks in India are required to maintain a capital conservation buffer of 2.50% with effect from 01 October 2021
- II. RBI issued guidelines on CCyB framework for banks in India in February 2015. The CCyB may vary from 0 to 2.5% of total RWA and the decision would normally be pre-announced with a lead time of 4 quarters. The activation of CCyB will depend upon Credit to GDP gap in India along with supplementary indicators such as Credit-Deposit ratio for a moving period of 3 years, industry outlook assessment index and interest coverage ratio. As stated by RBI in press release date April 23, 2024, a review of CCyB indicators was carried out by the RBI and it has been decided that it is not necessary to activate CCyB in India at this point in time.
- III. The Reserve Bank of India (RBI) released the framework on D-SIB requirements for banks operating in India in July 2014.

 Banks may become systemically important due to their size, cross-jurisdictional activity, complexity, interconnectedness and lack of substitutability. As per the RBI guidelines, a foreign bank having branch presence in India (such as the Bank) which is classified as Globally Systemically Important Bank (G-SIB) by Financial Stability Board (FSB), has to maintain additional CET1 capital surcharge in India as applicable to it as a G-SIB, proportionate to its Risk Weighted Assets (RWAs) in India. Accordingly, 1.81% had been added to minimum requirement towards G-SIB as of 30 June 2025.

The Bank continues to monitor developments and believes that current robust capital adequacy position means the bank is well placed for continuing compliance with the Basel III framework.

(Incorporated in Hong Kong SAR with limited liability)

Basel III – Pillar 3 disclosures of India Branches (Continued)

For the period ended 30 Jun 2025

3. Credit risk

a. General

Credit Risk is the risk of financial loss if a customer or counterparty fails to meet an obligation under a contract. It arises principally from direct lending, trade finance, marked-to-market exposure from derivative contracts and certain off-balance sheet products such as guarantees and from the Bank's holdings of assets in the form of debt securities.

The principal objectives of our credit risk management function are:

- to maintain a strong culture of responsible lending, and a robust cresdit risk policy and control framework;
- to both partner and challenge our businesses in defining, implementing and continually reevaluating our credit risk appetite under actual and stress scenario conditions; and
- to ensure there is independent, expert scrutiny of credit risks, their costs and their mitigation.

Strategy and Processes

HSBC Holdings plc formulates high-level risk management policies for the HSBC Group entities worldwide. The Bank has also formulated local credit guidelines consistent with HSBC policy and RBI guidelines. The Bank's risk management policies and procedures are subject to a high degree of oversight and guidance to ensure that all types of risk are systematically identified, measured, analyzed and actively managed. The Bank remains a full service bank, servicing all major business groups- Global Banking and Markets (GBM), Commercial Banking (CMB) and Wealth and Personal Banking (WPB).

The Bank has standards, policies and procedures dedicated to the sanctioning, monitoring and management of various risks, which include the following:

- The Board of The Hongkong and Shanghai Banking Corporation Limited in Hong Kong SAR (HBAP) has established the India Executive Committee (EXCO) to assist the Board in the running of the Bank. The EXCO is authorized to exercise all the powers, authorities and discretions of the HBAP on the management and day to day running of the Bank, in accordance with the policies and directions set by the Board from time to time. EXCO approves all the policies including credit policies. A Risk Management Meeting (RMM) consisting of senior executives, reviews overall portfolio risks and key risks faced by the bank in India on a monthly basis.
- Wholesale Credit Risk (WCR) independently assesses the credit profile of the customer
 and the applications are then approved in the committee. All the domestic credit proposals
 in wholesale banking are approved by Credit Committee. There are nine levels of credit
 committees, each with different membership and approval authorities, depending on the
 size and complexities of the proposal.

(Incorporated in Hong Kong SAR with limited liability)

Basel III – Pillar 3 disclosures of India Branches (Continued)

For the period ended 30 Jun 2025

3. Credit risk (Continued)

a. General (Continued)

Strategy and Processes (Continued)

- The WPB Risk function is responsible for monitoring the quality of the Wealth and Personal Banking lending portfolio. For retail lending, INM has developed credit application scorecards (which make use of statistical models & historical data) and defined policy parameters to assess the borrowers. The Bank also deploys other tools like external verifications, negative customer database search & most importantly credit bureau checks through the Credit Information Bureau (India) Limited (CIBIL). Policy rules are built into the system to enable online checks. This may also be supplemented with judgmental lending as appropriate. The judgmental aspect tries to identify the financial strength, ability and intentions of borrowers for repayment.
- WPB Fraud & Credit Control Services manages the First Line of Defense (FLOD)
 activities i.e. Underwriting, Fraud and Collections. CCS underwriting team decisions cases
 as per the credit policy parameters in line with the INM EXCO approved Policy on Credit
 Committee & individual lending & written-off authorities for Retail Banking.
- For retail risk, the INM WPB Risk and Acquisition and Account Risk Management Team reviews and communicates the various internal risk policies. The RRPs (Risk reward program) defines the product parameters for WPB.
- All material risks are covered under robust framework for Risk Appetite Statements
 (RAS) and Risk Tolerance triggers. The Risk Management Meeting reviews and regularly
 monitors the compliance with RAS. The Bank has stipulated Credit Risk Appetite and
 tolerance triggers for asset quality, impairments, risk weighted assets, risk adjusted returns
 and concentration risks.
- The bank has various policies to support the management of the wholesale credit risk. Some of the key policies are highlighted below:
 - Designing of comprehensive credit risk policies for management of Wholesale Exposure norms and Country Risk Plan. These policies delineate the Bank's risk appetite and maximum permissible exposures to individual customers, customer groups, industries, sensitive sectors and other forms of credit risk concentrations.
 - The bank also has comprehensive policies for valuation, end use monitoring, real estate exposures, management of intra-group exposures, provisioning, distressed assets and recovery and sale of NPA.
 - The bank has sustainability risk policies to ensure management of reputation risk in high risk sectors.
 - Stress Testing Policy & Framework for rigorous risk specific and Enterprise-wide stress testing and reporting is used to assess the credit risk on the portfolio.
 - Managing exposures to debt securities by establishing controls in respect of the liquidity of securities held for trading and setting issuer limits for financial investments. Separate portfolio limits are established for asset-backed securities and similar instruments.

(Incorporated in Hong Kong SAR with limited liability)

Basel III – Pillar 3 disclosures of India Branches (Continued)

For the period ended 30 Jun 2025

3. Credit risk (Continued)

a. General (Continued)

Strategy and Processes (Continued)

- Controlling of cross-border exposures to manage country and cross-border risk through the imposition of country limits with sub-limits by maturity and type of business.
- Maintaining and developing HSBC's risk rating framework and systems to classify exposures meaningfully and facilitate focused management of the risks involved. Rating methodologies are based upon a wide range of financial analytics together with market data-based tools, which are core inputs to the assessment of customer risk. For larger facilities, while full use is made of automated risk rating processes, the ultimate responsibility for setting risk ratings rests with the final approving executive. Risk grades are reviewed frequently and amendments, where necessary, are implemented promptly.

Structure and Organisation

The Risk function is responsible for the quality and performance of its credit portfolios and for monitoring and controlling all credit risks in its portfolios.

Credit underwriting is processed at different levels (country, region, Group) depending on size and complexity of proposals and by different teams (FIs / Corporate / Trade / Cross-Border Approvals). Credit approval authorities are delegated from the Chief Risk Officer at the Regional Head Office in Hong Kong to the CEO, India and the CRO, India. The CRO in India maintains a functional reporting line to the CRO in Hong Kong. All the domestic credit proposals in wholesale banking are approved by Credit Committee as delegated by the EXCO. There are nine levels of credit committees, each with different membership and approval authorities, depending on the size and complexities of the proposal. For Retail, Credit approval authorities are assigned from the Chief Risk Officer at the Regional Head Office in Hong Kong to the CEO, India. EXCO will assign lending authority to the Retail Credit Committees and assign lending authority at a 'band' level to WPB officers. WPB Risk Head will communicate the EXCO assign limits to individual WPB officers. For certain customer types, the approval is granted either by ASP Risk/ Group Risk basis the recommendation of India WCR. Relationship management of wholesale problem accounts or downgrades in certain internal ratings are transferred to SCU (Special Credit Unit) within Risk.

Scope and nature of risk reporting, measurement, monitoring and mitigation

The Bank manages and directs credit risk management systems initiatives. HSBC has constructed a centralized database covering substantially all of the Group's direct lending exposures, to deliver an increasingly granular level of management reporting.

The Bank performs regular reporting on its credit risk portfolio (wholesale & retail), to include information on large credit exposures, concentrations, industry exposures, levels of impairment provisioning, delinquencies, LTVs and country exposures to various internal governance forums. Key portfolio metrics is reported to the RMM monthly.

Basel III – Pillar 3 disclosures of India Branches (Continued)

For the period ended 30 Jun 2025

3. Credit risk (Continued)

a. General (Continued)

Non-performing advances

Advances are classified into performing and non-performing advances ('NPA') based on the RBI's prudential norms on classification. Further, NPAs are classified into substandard, doubtful and loss assets based on the criteria stipulated by RBI.

Specific provisions are made on a case by case basis based on management's assessment of the degree of impairment of the advances (including mortgage loans but excluding other homogeneous retail loans), subject to the minimum provisioning levels prescribed by the RBI. Where there is no longer any realistic prospect of recovery, the outstanding advance is written off.

Subject to the minimum provisioning levels prescribed by the RBI, provision on homogeneous loans relating to retail business (excluding mortgage loans) are assessed on a portfolio basis using the historical loss or net flow rate methods.

b. Quantitative disclosures for portfolios under the Standardised approach

(i) Total gross credit risk exposures by geography for the Bank

| Total | 4,589,429 | 10,240,012 |
| | | |

4. Disclosures for portfolios under the Standardised approach

The Bank uses the following External Credit Assessment Institutions (ECAIs) approved by RBI to calculate its capital adequacy requirements under the Standardised approach to credit risk for Corporate, Bank and Sovereign counterparties.

Domestic ECAIs for external ratings of Indian Corporates:

- a) Credit Analysis and Research Limited (CARE)
- b) CRISIL Limited
- c) India Ratings and Research Private Limited (FITCH)
- d) ICRA Limited
- e) Acuite Ratings & Research Limited (ACUITE)
- f) Infomerics Valuation and Rating Pvt Ltd. (INFOMERICS)

The Bank used the ratings issued by the ECAIs (for both long term and short term facilities) to risk weight both funded as well as non-funded exposures to corporate customers.

The process used by the Bank to transfer public issue ratings onto comparable assets in the banking book is in accordance with RBI Master Circular on Basel-III Capital Regulations dated 01 April 2025.

For assets in the Bank's portfolio that have contractual maturity less than or equal to one year, short term ratings accorded by the chosen credit rating agencies are considered relevant. For other assets, which have a contractual maturity of more than one year, long term ratings accorded by the chosen credit rating agencies are considered relevant.

The mapping of external credit ratings and risk weights for corporate exposures is provided in the grids below:

(Incorporated in Hong Kong SAR with limited liability)

| Unrated | Unrated | Unrated | Unrated | Unrated | Unrated | 100% |

^{*} As per RBI guidelines dated 25th Aug 2016, Exposures to Corporates, AFCs and NBFC-IFCs having aggregate exposure to banking system > INR 100 crores which are currently rated but becomes unrated subsequently, the risk weights need to be increased to 150% with immediate effect.

In August 2016, RBI issued guidelines for revising the risk weights for unrated exposures to Corporates, AFCs, and NBFC-IFCs having aggregate exposure from banking system > INR 200 crore to 150% from 100%. The implementation of these guidelines was deferred by RBI till 31 March 19, however the same is applicable from April 2019.

| S&P and Fitch ratings | AAA to AA | A | BBB | BB to B | Below B | Unrated |
|-----------------------|-----------|-----|-----|---------|---------|---------|
| Moody's rating | Aaa to Aa | A | Baa | Ba to B | Below B | Unrated |
| Risk weight | 20% | 50% | 50% | 100% | 150% | 50% |

Risk weight mapping of foreign sovereigns / foreign central banks

| S&P and Fitch ratings | AAA to AA | A | BBB | BB to B | Below B | Unrated |
|-----------------------|-----------|-----|-----|---------|---------|---------|
| Moody's rating | Aaa to Aa | A | Baa | Ba to B | Below B | Unrated |
| Risk weight | 0% | 20% | 50% | 100% | 150% | 100% |

Risk weight mapping of foreign public sector entities

| S&P and Fitch ratings | AAA to AA | A | BBB | Below BB | Unrated |
|-----------------------|-----------|-----|-----------|----------|---------|
| Moody's rating | Aaa to Aa | A | Baa to Ba | Below Ba | Unrated |
| Risk weight | 20% | 50% | 100% | 150% | 100% |

Risk weight mapping of non-resident corporates

| S&P and Fitch ratings | AAA to AA | A | BBB | Below BB | Unrated |
|-----------------------|-----------|-----|-----------|----------|---------|
| Moody's rating | Aaa to Aa | A | Baa to Ba | Below Ba | Unrated |
| Risk weight | 20% | 50% | 100% | 150% | 100% |

Exposure under various risk buckets (post Credit Risk Mitigants)

(Rs'000)

| | As at 30 Jun 2025 | As at 31 Mar 2025 |
|--|-------------------|-------------------|
| Below 100% risk weight | 2,042,985,481 | 1,955,565,845 |
| 100% risk weight | 587,953,801 | 590,506,986 |
| Above 100% risk weight | 729,802,507 | 633,138,600 |
| Deductions* | -3,327,259 | (3,382,931) |
| Total | 3,357,414,530 | 3,175,828,500 |
| *Deduction represents amounts deducted from Tier I Cap | vital | |

Note: Exposure comprises of Loans & Advances, Credit equivalent of guarantees, acceptances, letter of credit, other Non-Market Related off balance sheet obligations, credit equivalent of derivative exposures post Credit Risk Mitigants (CRM).

*As per RBI guidelines as on 01 April2025, DTA which was deducted from CET1 capital, can be recognised in the CET1 up to a limit of 10% of Bank's CET1 capital (after application of regulatory adjustments mentioned in RBI Master Circular on Basel-III Capital Regulations dated 01 April2025). Currently DTA is NIL % of Bank's CET1 capital. Accordingly, there is no deduction on account of DTA for 30 June 2025.
